Shamrocks Defeat Cranbrook Pontiacs in Fast Hockey Game

There may be some who disagree with the theory that Shamrock loses its flavor on the bedpost over night, but there is no disputing the fact that the Coleman Shamrocks get stronger as the years roll by. This was amply demonstrated at Cranbrook on Friday night of last week, when they tamed the far-famed Pontiacs by defeating them to the tune of 5 to 0.

It would not be chivalrous on our part to even hint that the Shamrocks are composed of a bunch of old-timers. Banish the thought! There is no gaining the fact that their finished style of team play, modeled on the system used so effectively by the Coleman Tigers of a couple of years ago, had the Pontiacs baffled from start to finish.

The Cranbrook ladies had a good share of the play, but lack of system and finish in the goal area, proved to be their Waterloo when it came to scoring goals, and tough though it may be, goals are what count even in a ladies hockey match.

The Coleman ladies report having enjoyed their trip to Cranbrook immensely, and speak in glowing terms of the good time accorded them in the B.C. city.

Coleman Ignores The Law

The financial statement of the town of Blairmore was published last week in the Blairmore Enterprise, in accordance with the provisions of the Town Act. During the past few weeks practically every town in the province of Alberta has published their financial statement. Coleman is again like the cow's tail, behind in observing this provision of the Alberta statutes.

A local hockey game between the Cranbrook Pontiacs, who are playing in Banff next week, and the local Shamrocks, is being arranged for Saturday, Feb. 12th, in the local Arena. The Pontiacs are returning home on that date by way of the Crow, and if ice conditions permit, these two fast ladies hockey teams will clash on Saturday evening, Feb. 12th.

THOUGHTS

ON DEBTS:

Debt is the worst poverty—M. G. Lichtner.

Who goes a borrowing goes a sorrowing—Tusser.

If I owe Smith ten dollars, and God forgives me, that doesn't pay Smith—Ingersoll.

Many delight more in giving of presents than in paying their debts—Sir Philip Sidney.

Debt is like any other trap, easy enough to get into, but hard enough to get out of—H. W. Shaw.

Debt is the secret foe of thrift, a vice and idleness are its open enemies—Aubrey.

Industry pays debts, while despair increaseth them—Ben. Franklin.

The man who never has money enough to pay his debts has too much of something else—Bassford.

Creditors have better memories than debtors; and creditors are a superstitious sect, great observers of set days and times—Franklin.

Paying of debts is, next to the grace of God, the best means in the world to deliver you from a thousand temptations and vanities—Delany.

RT. HON. W. C. BRIDGEMAN
First Lord of the British Admiralty, who is responsible for the action of the British Government in sending a large naval force to the defence of Shanghai, China.

"Over The Hill"

Draws Big House

The Palace Theatre was filled on Tuesday evening to witness the screen version of Will Carleton's "Over The Hill," and it is safe to say that everyone present left the building more than satisfied with this wholesome production.

The picture is a ten reel affair, clean and inspiring. There is nothing of the spectacular about it. No massive settings, gilded scenes or expensive cast; yet with its homely story, a little old fashioned mother, an affectionate but weak-willed husband, six children and a humble home, it has an appeal that is gripping and vital.

Again Voting in the Dark

Monday of next week is nomination day for councillors and school trustees, and as has been the case during the past five years, the burghesses of the town are again asked to nominate and elect representatives to conduct the business of the community blindfold. Not one ratepayer in a hundred in Coleman has the slightest idea whether the past incumbents in office merit their continued support, owing to the fact that no public statement has been given out as to what they have accomplished in the matter of civic betterment during the past year. The financial statement and auditor's report is also again conspicuous by its absence. This barometer of civic affairs should be in the hands of every ratepayer at least one week before nomination day if the voters are to register an intelligent ballot on civic affairs.

It is asking too much of those who spend our money to give an accounting and obey the law of the Province?

Fancy Skater at Arena

Gordon Thompson, of Springhill, Nova Scotia, was the attraction at the Arena on Saturday evening last. Thompson is recognized as one of the best in all Canada, and thoroughly demonstrates his claim with speed, fancy and comic skating. As Miss Hazelcut, with comedy glee he performed some difficult stunts. The concluding part of the program was the barrel jumping, in which event he proved very adept, clearing seven with little difficulty.

A large number of Coleman Old Timers gathered in the K. of P. hall on Tuesday evening of this week to honor one of their departed members, Mrs. T. Muir. A very pleasant social evening was spent, and one and all present expressed the hope that all happiness and prosperity would attend Mrs. Muir and family in their new home at the Coast.

Town of Blairmore Has A Balance of \$17,000

The annual ratepayers meeting of the Town of Blairmore (not Coleman) was held last Friday evening, when the members of the council gave a report of their stewardship during the past year, and the auditor's report on the financial condition of the town was read. The auditor's report showed that after meeting all obligations of the town at the end of 1926, the council had a surplus of about \$17,000.

Immediately after the town meeting the members of the school board gave their reports dealing with the past year's work, and the auditor's financial report. The cost of operating the Blairmore schools was shown to be slightly over \$26,000 for the year 1926. The school board showed a surplus of about \$5,000 on the year's operations.

Did anyone hear of the Council and School Board of the Town of Coleman holding a ratepayers meeting last Friday evening?

Pass Has Strong Team In Play-Offs to Meet Calgary Rangers, Feb. 11 and 12

The MacInn Rangers, Calgary's sextette of senior hockey stars will be in the Pass on Feb. 11th and 12th, when they will meet the All-Star team from the C. N. P. league in a contest to decide the southern representative in the Alberta senior play-offs. There will be two games in the play off series, one to be played in the Blairmore Arena and the other to be played at Bellevue.

The Pass representatives will be a strong aggregation, probably the strongest that has ever represented it outside of the Coleman Tigers of two years ago. Between the pipes will be Duane of Blairmore, with Manson and Barbour of Bellevue on defense, Brennan, Coleman's skating ace, will fill the centre position, while McKay, Johnson and Valpre will share the heavy work on the wings. Fisher of Bellevue and Amos his team mate complete the roster for the coal mining aggregation. Rhynas of Blairmore, will manage the team. A series of exhibition games are being played between the All-star team and a second team of regulars in the C. N. P. league. With this opportunity of getting acquainted with each other's style of play there is no doubt that the boys will have a very smoothly working team to head off the Rangers in their quest of the provincial silverware.

These same Rangers have a very nifty team. Nicholson is a clever net custodian. Jacques and Henderson, the two elongated defense men of the Ranger six, have both made names for themselves in the Calgary Commercial league, besides holding down their end well for the Rangers. Speck, Adams, Howard, Murphy and Matel will probably interchange on the forward line. Speck, who is probably the pick of the Ranger line-up, was slated for professional ranks but a serious injury early in the season spoiled his chances. Howard, who played as a regular for the world's champion Canadians last year is a fast skater and a tricky stick handler. Murphy is a former team-mate of Howard's, Adams was another fast travelling junior contender a few years back and Matel, the "daddy" of the team, held forth with the Regina Allen cup holders some years ago.

Mr. J. Downie left on Tuesday's local to take up his new position with the Bank of Commerce at Vulcan.

Pythian Sisters Give Social For Two Departing Sisters

The Pythian Sisters held a farewell social on Monday evening of this week for two of their members, Sister Isabelle Muir and Sister Jane Jones, who are leaving Coleman on Sunday next. The affair took the form of a whist drive followed by a dance, and proved to be most enjoyable. During the evening all the members wished the departing Sisters every happiness and prosperity in their new home.

The winners at whist were as follows:—Ladies first Mrs. Walter Nelson, consolation Mrs. Chambers. Gents first Mr. R. Evans, consolation Mrs. Royal.

Selling Out Grocery Stock

C. Calabro, West Coleman merchant, has announced through bills printed by The Journal this week, that he is disposing of his entire stock of choice groceries. The sale commences on Saturday of this week and will continue until all goods are cleared out. A sale bill will be left at your house, read it over carefully and take advantage of the many splendid bargains offered on Saturday.

Mine Owners' Tax Act Is Invalid

OTTAWA, Feb. 1.—The Supreme Court of Canada, in a judgment handed down, holds that the Mine Owners' Tax Act, 1923, of Alberta is invalid. The appeal of Caledonia Collieries, Limited, versus the King, on the question of the validity of the tax, is allowed with costs and the action is also dismissed with costs in the Supreme Court of Canada and the appellate division of Alberta.

The Mine Owners' Tax Act, enacted in 1923, first imposed a tax of two per cent. on gross earnings. This was declared invalid, and the act was then amended to impose a straight tax of five cents per ton on coal mined. This now has been declared invalid.

W. I. Hold First Meeting of Year, Plan Membership Drive

The regular meeting of the W. I. was held at the home of Mrs. C. S. Oumette. This being the first meeting in 1927 the chair was taken by the new president, Mrs. A. E. Graham, who promises the organization a useful and interesting year.

The Dept. of Public Health sends an offer of an annual Baby Clinic to the town. Anyone who is particularly interested in this would oblige the Institute by informing them of the fact. The motto "keep well babies, well" is worthy of support.

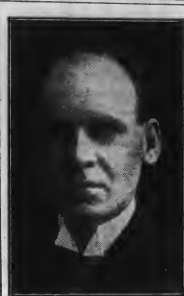

This is the beginning of a new year, the W. I. is anxious that it should be a good one, a drive will be made for more members.

Roll call was answered with interesting suggestions for programs for 1927. If the programs for the following months prove as interesting as those suggested many enjoyable evenings are in store for the members.

Mackinson Relief Fund

A Friend, Coleman	\$ 5.00
Previously acknowledged	30.00
	\$25.00

Mr. Dominick Calabro, son of Mr. and Mrs. C. Calabro, of West Coleman, is leaving on Monday of next week for New York where he intends residing.

THOMAS BRADSHAW
General Manager of Mansey Harris Company, who reports that sales in 1926 were 68 per cent. greater than two years ago.

Young Slav Passes Funeral Held Tuesday

Death claimed Nett Drosesh, a resident of West Coleman, on Saturday last. The deceased was ill less than a week with the flu when he suddenly passed away. He was 25 years of age and a native of Czech Slovakia, and had only been a resident of Coleman for a little over a year. He was a member of the Local Order of Moose and the Czech Slovak Society.

The funeral was held on Tuesday afternoon of this week from the Moose Hall to the Holy Ghost church where service was conducted by the Rev. Father McCormick. A large body of lodge members and friends followed the cortege, interment taking place in the Catholic cemetery.

Fire Destroys Two Buildings at Bellevue

A bad fire occurred at Bellevue early Wednesday morning, when two butcher shops connected by Mike Peronak and Albert Copeland were burned to the ground and became a total loss. The Chinese restaurant on the East side adjoining was damaged. The drug store connected by Mr. A. Barbour on the West of the burned buildings escaped with minor damage.

Dr. and Mrs. J. McConaghy Leaving

Dr. and Mrs. J. McConaghy expect to leave Coleman about the 15th of the month for Windsor, Ont., where they intend making their home. Dr. McConaghy has recently disposed of his dental practice here and his successor will take over the business on or about February 15th. Dr. and Mrs. McConaghy will be missed by a large circle of friends and acquaintances made during their three years' sojourn in Coleman, who will wish them every success in their new home.

\$100 For a Name!

The Calgary Advertising Service, of Calgary, are offering one hundred dollars for a name for the new beer made by the Silver Spray Brewing Co. See their advt. in this issue of The Journal for full particulars.

St. Paul's United Church of Canada

Sunday, Feb. 6th
2.30 p. m. Sunday School.
11 a. m. Morning Worship.
7 p. m. Evening Service.
You will enjoy the congregational singing.
Strangers and visitors cordially invited to the service.
H. J. Bevan, Minister

Trade Journal Speaks Well Of Local Mining Companies

In an article dealing with the stock markets in the current issue, The Mining and Industrial Record, published in Vancouver, has the following to say regarding the two local mining companies:—

McClivray Coal and Coke is making rapid recovery from the unfortunate disaster which caused a temporary suspension of operations. The company is under good management, with assured markets and a good quality of coal. It will soon recover and be in a position to maintain dividends.

International Coal should prove attractive. The mine is under the best of management, is well equipped with the latest plant for preparing the product for the market, is soundly financed, and has large assets in its coal reserves. The coal situation is steadily recovering from the effects of the prolonged strikes.

Leaving on Sunday for Coast

Mrs. T. Muir, Master Tommy, and baby daughter Monica, together with Mrs. Muir's father, Mr. Wm. Harrison, are leaving Sunday morning for Lulu Island, near Vancouver, B.C., where they will take up residence on a fruit ranch recently purchased by Mr. T. Muir. He will accompany the other members of the family, but will return to Coleman for a few months to settle up his business affairs here before returning to the Coast to reside.

Elks Give Farewell Social to Mr. J. Downie

A good gathering of members of B.P.O.E. Lodge No. 117 took place last Friday evening for the purpose of giving Mr. J. Downie a royal send-off on his way to take over new duties with the Bank of Commerce at Vulcan. Despite less than 24 hours notice those in charge of the farewell social arranged a very interesting and pleasing program which went over in the usual Elks style. During the course of the evening Brother Downie, who has been an indefatigable worker on behalf of Elkhod, was made the recipient of a moment which will remain in the memory of many pleasant occasions he roamed the forest with the Elk herd in the Crow's Nest Past district.

Juvenile Hockey League

Two good games were played on Saturday to bring the boys to the half way mark of their schedule.

The Scouts and West Coleman, leaders in the Midget section, failed to score against each other and it will be for them to decide who is the better team next week, when they meet again. Both forward lines seemed to lack the ability of boring through to get a clear shot at goal. The game ended 0 after an overtime period.

In the Juvenile section the Outlaws broke into the winning column by taking the measure of the Tuxis B team 3-1. The winners established their lead in the early stages of the game and were never headed.

No new players will be allowed on any team for the balance of the league. Any player is qualified to play who has participated in one game to date.

"Son Of The Sheik", with Ralph Valentino in the title role, at the Palace and Grand, on Saturday, February 12th.

BRITAIN WILL OFFER GENEROUS TERMS TO CHINA

London, Great Britain is about to offer China what are described as "generous" terms, in order to meet the serious situation, with its grave possibilities, that has arisen in the Far East.

The British press and public are anxiously awaiting official publication of the proposals, but up to the present the ministers content themselves with repudiating inaccurate versions of alleged terms published in the foreign press, and at the same time asserting that the terms, when made public, will be found to be generous. The impression drawn from the ministerial hints is that while the proposals may not go far enough to satisfy the government, the Liberal and Labour allies, they will prove a satisfactory basis for the Chinese Conservative supporters of the government and the British business community in China.

Though it is understood that the terms will provide for the eventual surrender of the British concessions in China, including extra-territoriality, nothing has been allowed to leak out concerning a question which is considered vastly more important, namely, what are the guarantees that will be required from China and in what way does the government propose to get over the difficulty that there is no single government body in China at the present time in which such guarantees could be extended.

It is generally assumed that the government, in drafting its proposals, has looked to the fact that the Chinese are something which will provide security and a satisfactory basis for trading of a permanent character.

West Indian Negroes Greet Royal Couple

Several Thousand at Balboa Take Part in Welcome to Duke and Duchess of York

Balboa, Panama.—After a brief stay in the canal zone, the Duke and Duchess of York continued their voyage to Australia. The British cruiser Hopen on which they are travelling steamed out to the Pacific while a great crowd thronged the waterfront. The Royal couple remained on the after deck until the vessel was about four miles distant.

The British colony was given an opportunity to greet the Duke and Duchess. It was a profound manifestation of loyalty in which several thousand West Indian Negroes had a part.

Replying to addresses by prominent members of the colony, the Duke showed emotion and found difficulty in every speech. He gave the colonists his assurance that he would inform the King of their loyalty. Later there was an inspection of the Royal Guard and the Duke and Duchess were inducted with President Chalmers.

Ontario Wheat Pool

Will Work in Conjunction With the Three Western Pools

Chatham, Ont.—Launching of Ontario's grain pool, the Ontario Wheat Pool, of the Western Canada grain pool, took place at a meeting of 300 Kent County farmers here.

The Ontario pool will work in conjunction with the three Western Canadian pools and when it is fully organized it is hoped that the greater portion of the grain grown from the Ontario River to the Rocky Mountains will be marketed through one central organization in the hands of the producers themselves.

The term of contract adopted by the Ontario pool is very similar to that of the Manitoba Wheat Pool. The grower who ships in grain to the pool for a term of five years.

Discourages Return of Missionaries to China

Cable Advises Any Now in America Not to Return

Toronto. A cable received by the Toronto headquarters of the China Inland Mission from the Shanghai mission house, makes reference to the return of missionaries now by American. The cable was received in reply to a message sent to Shanghai asking advice regarding the return of Mr. and Mrs. Ream from Vancouver on February 26. Mr. and Mrs. Ream, who are Australians, have been spending a fortnight in Canada and the United States.

Thinks India Should Help Protect Shanghai

"Times" of India Believes it Duty of Government

Bombay, India. The view expressed by Nationalist newspapers that troops from India should not be sent to China, is not shared by the "Times" of India, which considers it the "plain duty" of the government to secure the protection of the international settlement in Shanghai so long as that security depends upon existing troops. There is a large Indian community in Shanghai and very important Indian commercial interests there; it is just and proper that troops from India should share in this essential duty, the "Times" points out.

Talk of war with China is non-existent in the opinion of the Indian Daily Mail, which says that protests against sending a contingent to China are not well advised, "since the present dispatch of a contingent may prevent further aggravation of the conditions in China and promote a peaceful settlement."

Would Repeal Present Act

Bring Provisions of Livestock Act in Force in Saskatchewan is Proposed

Regina. It is proposed by legislation to bring provisions of the Federal Livestock and Livestock Products Act of 1923 into force in Saskatchewan.

A bill to enact such legislation has been distributed and provides that the Dominion Act and amendments thereto, and the regulations thereunder, shall be made, as while the legislative authority of the province and outside that of the Dominion of Canada. Such provisions shall have the force of law in Saskatchewan, and otherwise enacted by the legislature of Saskatchewan shall be and remain in force until repealed by the Governor-General in Council.

The Dominion Governor is given power to bring into force any superior, inferior or amendment to either of said Acts.

The Livestock and Livestock Products Act of Saskatchewan, 1923, will be repealed by the present Act.

Keep Out of Politics

B.C. Prohibitionists Will Not Form a Political Party

Vancouver.—There will be no separate political organization of B.C. prohibitionists. It was decided by an overwhelming vote at a provincial convention of prohibitionists here, attended by representatives from all parts of the province.

Rev. W. W. Peck, late secretary of the British Columbia Prohibition Association, in a communication, advised against political organization, as did also the secretary of the Alberta Prohibition Association, and W. D. Hayler, M.L.A., of Winnipeg. The secretary of the Saskatchewan League of Prohibitionists, Mr. J. H. Macdonald, also, in a letter, rejected the suggestion which had been the path of the prohibitionists' party in the United States.

Plane Drops Food and Fuel

Aviators Carried Aid to Fishing Tug

Michigan City, Ind.—The fishing tug Imperial, with three hungry men aboard, was found stuck fast in a mud ice field seven miles north of Michigan City, and food, coal and medical supplies were dropped by the hovering aeroplane which sailed within ten feet of the little craft. The three fishermen aboard had been without food for three days. Approximately in the center of an ice field a quarter-mile square, the little vessel made a good target for the low-flying plane, and a half-ton of coal was dropped in fifty-pound bags on the ice alongside it.

Election Was Unanimous

Captain O'Leary Named World's Outstanding Aviator of 1926

Paris.—Captain O'Leary, French aviator, who has distinguished himself with flights to French Indo-China, Russia and other parts of the world has been named by the International League of Aviators as the world's outstanding aviator of 1926.

Sir Alan Cobham, of England, who made a record trip to Australia, was also named on the first ballot, but O'Leary's election later was made unanimous.

Population of Saskatchewan Young.—The population of Saskatchewan was 521,942 at the census taken on June 1st. This is announced in a preliminary statement issued by the Bureau of Statistics. The report shows an increase of 53,252 over the census of 1921.

Big Colonization Plan

15,000 Settlers to be Located in Three Western Provinces This Year

Calgary.—Three thousand families, or roughly speaking, 15,000 people, are assured for settlement on the three prairie provinces during 1927. T. O. P. Herzer, manager of the Canadian Colonization Association, told the representatives of the various colonization societies who met in conference here, Mr. Herzer explained that this meeting differed from other colonization conventions in that its object was not the attracting of settlers but to making out how many of the 2,000 families, known to be coming to the West this year, could be taken care of in Alberta.

"Our purpose of meeting here," he added, "is to take an inventory of how many can be located on land in this province on Canadian Pacific Railway land, on private land, rented land, and on Government-owned land."

Mr. Herzer emphasized the fact that there was no attempt to replace Canadians by "half-baked Europeans."

BRITISH AND CHINESE IN RACE FOR SHANGHAI

London.—The race for Shanghai, prize city of the Orient, is on between the British army and navy, and the Chinese Nationalists. The Cantonese conquest of the great international settlement at the mouth of the Yangtze, where 10,000 foreigners reside and many foreign refugees from all parts of China are now gathered and where the immense foreign trade interests of China are centered, must be accomplished within six weeks if the Cantonese are to avoid dealing with the British defence force of 20,000 men who are hurriedly leaving or will soon leave English ports, Malta and India. It is repeatedly emphasized by the British foreign office, however, that there will be no clash between the British and Cantonese unless British lives and property in Shanghai are endangered. The British defence force will make no effort to prevent the Cantonese from entering and occupying the city of Shanghai if they are strong enough to do so.

The British maintain that the question of the control of Shanghai is a problem to be settled by the attacking forces of General Chiang Kai Shek, commander of the Cantonese troops, and the defending army of Marshal Sun Chuan-Peng, ruler of Chekiang. Should Shanghai itself be threatened either by actual fighting or by the seizure of a Chinese army, the British defence force, together with the Shanghai volunteer organization, and whatever forces Japan, United States and France have available, would probably be employed along the 21-mile line, which would completely cut off Shanghai from the interior and render the city unsalable from Chinese attacks or occupation. This 21-mile line has been defined on previous occasions by volunteers and foreign documents when Chinese civil war threatened the city.

In England there is one telephone for 25 inhabitants, compared with one telephone to every seven in the United States.

Dog Stars of the Chateau Team

Whether or not the cameraman chased these husky dogs over the endless miles of snow he claims in order to catch them with their tongues hanging out and out of breath is hard to tell. There is no denying however that he has obtained an admirable set of pictures. The victims of the chase were, on the left, "Jiffy" and "Bang," the right, two of the seven huskies of the Chateau Frontenac Dog Team. This team is led by "Mounie," a veteran with a remarkable record of service in the north, with the Royal Canadian Mounted Police.

ONTARIO AGREES WITH QUEBEC ON THIS QUESTION

Toronto.—Complete agreement with the position taken by Premier Tassell of Quebec to the effect that on changes made in the constitution of Canada without reference to the individual provinces was expressed by Premier Ferguson here. Mr. Tassell is entirely correct in his view," said the premier. "The constitution is an agreement arrived at among the provinces as the result of a conference between them. It would be essential that any amendment to it should similarly be submitted to all the provinces and receive their consent."

"Not only do we agree with what Premier Taschereau has said, Ontario will stand by him in any protest, and protest vigorously, if it were proposed to make any change in the constitution without consulting him."

'Flu Takes Toll in Britain

667 Deaths From Epidemic Are Reported in One Week

London. A whitey rife last week has caused the recent epidemic of influenza, which has been prevalent in many parts of Europe, to lighten its grip on Great Britain. 667 deaths being reported in Britain for the week ending Jan. 25.

The official death toll in the city of London has shown a steady increase during the past three weeks, the figures being 72, 127 and 197. The epidemic has been particularly severe in London for the cause of deaths in some of the poorer districts of London people have had to stand in line to obtain death certificates.

Hundreds of school teachers are ill while some small shops in the East End have put up their shutters and placed a notice on the door: "The whole family is ill of influenza. Will return when better."

Settle Wage Dispute

Thirty Thousand Rail Shoppers Affected by Rate Revision

Montreal.—Settlements of the wage dispute involving 20,000 rail shoppers on nine Canadian railroads was announced here by the Railway Association of Canada. The men asked for 10 cents an hour increase. Settlement was effected on a basis of increases between two and four cents an hour. The agreement is the result of negotiations which have been proceeding for several months between the Railway Association of Canada and Division No. 4, Railway Employees Department, American Federation of Labor, representing employees in railway along the coast. The revision of certain working conditions was also effected.

Butter From New Zealand

Montreal.—Twenty-five thousand boxes of New Zealand butter, each box weighing 35 pounds, will be landed here by the steamship Arava, some time around February 18. Montreal produce men here declared that due to the demands of the U.S. for Canadian cream and milk, the butter from New Zealand was most client for the needs of Eastern Canada.

Ask for Exemption

Would Free Charitable and Educational Institutions From Income Tax

Ottawa.—Exemption of all contributions to charitable and educational institutions from taxation under the Federal Income Tax Act as requested by a delegation of prominent Canadian citizens which waited upon the government.

Hon. A. Robb, Minister of Finance, who, with Hon. J. L. Harkin, Minister of National Provinces, and Hon. W. D. Fisher, Minister of Customs, received the delegation, stated he would take the matter up with officials of his department and then lay the whole situation before his colleagues.

Included in the delegation were such prominent men as Sir Arthur Currie, Sir Louis Gouin, and George Foster.

Sir Arthur Currie stated the delegation represented more than 400 Canadian institutions from coast to coast.

Cannot Accept Contract

Boy Swimmer Would Not Be Used in Picture Until May

Hollywood, Cal. George Young, Canadian youth who won the \$25,000 prize in the recent Santa Catalina swim, failed in his first attempt to break into the film and feature capital his new fame.

Negotiations between Young and Famous Players-Lasky, in whose studio he recently underwent film tests, were dropped when it was found it would be impossible for the producers to use the swimmer in a picture until May. Young's managers insisted the film must start at once in order to release him for vaudeville tours.

The producers said Young's film tests showed the youth to have a "pleasing screen appearance."

Pool Wheat Via Western Ports

Huge Quantities of Grain Exported Via Vancouver and Prince Rupert

Vancouver.—The Alberta wheat pool has shipped nearly 5,000,000 bushels of grain from Vancouver this year to date and expects to move a total of approximately 20,000,000 bushels by the close of the season, George McElroy, sales manager of the pool, announced here.

From Prince Rupert the pool has shipped 2,500,000 bushels of grain, mostly to the United Kingdom, and expects to reach the 5,000,000 bushel mark before the season ends.

SERVICE LEAGUE FOR SOLIDARITY OF THE EMPIRE

Winnipeg.—Momentous questions on Empire relations, immigration, soldier settlement and organization were cleared from the agenda before the national convention of the Canadian Legion of the British Empire Service League.

The report on Empire relations, which was unanimously approved by the convention, calls for the adoption of a Dominion policy directed towards harmonious relationships within the British commonwealth of nations and the solidarity of the Empire be assured by the exercise of practical measures of immigration, industry and education.

The report was described by one speaker as one of the most "monumental" ever drawn up in the country. The committee responsible for its construction was composed of Dr. G. H. May, mayor of Hanna, Alta.; Brig-General Sir Richard Turner, Quebec City; Brig-General F. S. McNeil, Montreal; E. E. Spencer, Morden, Man.; and Col. J. McArthur, mayor of Regina.

The outstanding recommendations of the report include: development of Empire markets for all products; suppression of foreign literature and films whose influence is antagonistic to the Empire; introduction of text books in schools of British composition; and the safeguarding of Empire interests.

Another provision of the report stipulates that the Canadian Government be urged to enter negotiations with the British Government for an agreement under which the British Government would act as a large volume of suitable British settlers and as great an amount of British capital for development purposes as possible.

IS APPOINTED NEW HEAD OF THE TARIFF BOARD

Ottawa.—Appointment of W. H. Moore, of Dunbarton, Ont., to the chairmanship of the Dominion Advisory Board on Tariffs and Customs was announced by Hon. J. A. Robb, Minister of Finance. The appointment takes effect February 5.

Senator the Right Hon. George P. Graham, who resigned from the post when he was elevated to the Senate, will preside over the three-day hearing scheduled for this week, when the tariff on boots and shoes will be the chief item for discussion. Of the references on the agenda, four are rehearings, which is no doubt the reason why Senator Graham is remaining at his post until they are disposed of.

Announcing the new appointment Mr. Robb said:

"Under the chairmanship of the Right Hon. G. P. Graham, the tariff board has made quite a successful start. They are shortly moving into larger quarters, which will give them better facilities for hearing applications and carrying on the general business of the board. The instant access that the board has met with bears testimony to the respect in which Messrs. Graham, Lamont and McKenzie are held by the people of Canada and I am sure that this support will be continued during the term of office of the new chairman."

Mr. Moore is a barrister and a graduate in economics. He was formerly connected with the Canadian Northern Railway. He has a stock farm at Dunbarton.

Want Safe Railway Crossings

Saskatchewan Interested in Campaign Being Waged in States

Wardington.—Saskatchewan is interested in the campaign being waged in the United States to safeguard crossings, according to labor, the official publication of the railway workers.

H. E. Wills, national legislative representative of the Brotherhood of Locomotive Engineers, received a request from T. N. Bryan, chairman of the U. S. of L. E. provincial legislative body of Saskatchewan asking data concerning the safety legislation which the transportation brotherhood backed by the Department of Commerce and various business organizations are urging on the state legislatures which are convening this winter.

Mr. Bryan's report that the Saskatchewan board has been working along the same lines for some time. Mr. Wills forwarded the desired information and added this word of advice:

"I hope you will assist in stirring up interest in Canada with a view to getting uniform legislation on this most important subject."

May Establish New Town

Paper Mill to be Erected on East Coast of Vancouver Island

Victoria, B.C.—Negotiations have been completed between Hon. T. D. Pattullo, Minister of the Interior, and J. Lawson, attorney for the Crown, Vancouver Island Paper Interests of San Francisco, as a result of which the development at a cost of \$15,000,000 within five years of Campbell River on the east coast of Vancouver Island will be immediately undertaken. The first unit will be a 200-ton paper mill, but power sufficient for eventually supplying a mill capable of manufacturing 1,000 tons of newsprint a day is said to be available. Contemplated development will lead to establishment of a new town of 4,000 to 10,000 persons in the central region of the island. It is stated that the Canadian Paper Interests Company, Limited, was incorporated here at \$2,500,000 as a subsidiary to the Crown Vancouver Paper Company, which already is operating four other paper mills on the Pacific Coast.

Would Abolish Sales Tax

Ottawa.—Abolition of the government sales tax of 5 per cent, on all men's and women's clothing, was requested by a delegation representing Canadian wholesale and retail garment industries which waited upon Hon. J. A. Robb, minister of finance. Mr. Robb intimated that the request would give considerable consideration.

To Visit B.C.

Victoria, B.C.—Word was received at Government House that their Excellencies the Governor-General of Canada and Lady Willingdon will leave Ottawa on March 19, direct for Victoria, arriving here on March 24. They will spend a few days in this city as the guests of Lieut.-Gov. Bruce.

Sonless Father Takes His Boys to Alaska

BUCHANAN AND HIS BOYS

GEORGE E. BUCHANAN

"PRINCESS ALICE"

A bachelor who loves boys but who has no boys of his own! That is George E. Buchanan, a wealthy coal dealer of Detroit, a hard-boiled business man who thinks that the best possible education a boy can have is the education of travel. He has sent 145 boys to Alaska from Detroit and Vancouver via the Canadian Pacific "Princess" Steamers to Skagway; and now he plans to not only send a group of boys to Alaska the coming year, but he has enlarged his program and his former slogan, "On to Alaska with Buchanan" has a side-partner. "On to Europe with Buchanan!" Buchanan is a Canadian Scotchman who has prospered wonderfully in Detroit. He will tell you he has made money there, but—his big idea is to give the growing boy a chance. The boy

says, "I'll do it," but Buchanan knows in his canny Scotch way that the only thing worth having is the thing you have to earn. So he says to the boys: Here's a trip to Alaska, here's a trip to Europe for you, but listen:

"No boy, or man, ever appreciated or got any benefit out of anything he did not work or sweat for. You earn one-third of your passage money, and I will tell you how to do it as best I can; you get your parents to put up another third and I will loan you the remaining third—and you can pay it back to me when you get ready, so that another boy can be sent to Alaska—or Europe." Every boy who has made good his passage money to Alaska, is eligible for the European trip—and the percentage

of "make good" boys has been very high, according to Buchanan. Of all these Alaska boys, Buchanan says that two-thirds have voluntarily repaid him, although he has merely put them on honor to do it when they got ready—and he foresees no legal obligations, because there are none. Any boy, anywhere in the United States or Canada, can qualify for George E. Buchanan's trip to Alaska, or to Europe, and can earn his third anywhere but, of course, he should get in touch with Mr. Buchanan, in Detroit, to learn how to earn his third. All of his boys have a wonderful time, no matter whether they go to Alaska, or to Europe, and when they finish with him they have had a business and travel education worth a whole lot.

NOTICE

All current dog taxes must be paid by the 28th day of February, otherwise owners will be prosecuted. By Order, Town of Coleman.

A whist drive and dance will be held in the I.O.O.F. hall on Saturday, February 5th, commencing at 7:30 p.m. Lunch will be served. Everybody welcome.

Mr. and Mrs. H. M. Dafeo, of Youngstown, arrived in Coleman early this week and will take up residence on 2nd street. Mr. Dafeo has taken Mr. Downie's position with the Canadian Bank of Commerce.

PROMPT ATTENTION To Local Deliveries

American Economist Refutes Belief That Present Generation Enslaved By Use of Machinery

"In this new age, if we are wisely guided, all may be relieved of drudgery, all may have a surplus of energy with which to do what they like instead of being compelled to use all their energy doing things which mechanically compel, since the machine is more and more displacing cheap labor, not only in the productive establishments but also in the household," writes Professor T. N. Currier of Harvard University in January "Current History." "It is the machine that makes the high wages and the light work of the present day and the still higher wages and still lighter work of the future possible, since the world over a high product per worker goes with a high wage rate and a low product per worker with a low wage rate. It is the machine that is relieving housekeepers, small shopkeepers, farmers of the soul-killing drudgery to which they formerly were slaves. It is objected that this will make all slaves of the machine. That it will make us more and more dependent upon machinery is true, but we shall be no more dependent upon machinery than slave owners were upon their slaves or than well-to-do persons have always been upon hired help. To be dependent upon some one or some thing does not necessarily make us a slave of that person or that thing. Others find an objection in the fear that we are coming to be dominated by things, or that we are becoming too much obsessed with the value of mere things. Before we pronounce the word 'things' too scornful a word, we shall do well to consider that machinery is mere things, in the sense of mechanical contrivances, have contributed to the larger and finer life of the present. Without mechanical contrivances, for example, our ability to communicate with our contemporary fellow beings would be limited to the carrying power of the human voice and the running power of the human legs and we could benefit by the thoughts and achievements of our contemporaries only in so far as the human memory supplemented by oral transmission could hand them down to us.

"Of course, machines are not everything. A modern Martin in the next up-to-date house with every known mechanical device to save work may look the soul of Mary; but that is not the question. The question is, Given the soul of Mary, what is the machine that has the benefit of labor-saving devices that could? To say 'Yes' would not be much of a tribute to the soul of Mary. These devices are merely relief, he believes that the machine and the machine of modern machinery and release energy to be used in whatever ways their souls may desire."

Feeding Dairy Calves
Changing From Whole to Skim Milk is Critical Time
Calf-feeding is of momentous importance to the dairy. The method pursued at Nappan, N.S., Dominion Experimental Farm is as follows: As told in the last report of the Superintendent, Mr. W. W. Baird. The calves receive a mixture of 1 parts bran, 2 parts oats, 1 part of meal, and 1 pound bone meal per 100 pounds of milk fed for the first year. Until the calf is around six to eight weeks old whole milk is fed and then a gradual change is made to skim milk. At this time a small amount of fat seed jelly is fed, starting with about one quarter pound and increasing by degrees to one pound per day. The amount of dry grain and roots fed increases as the calf grows older. The main thing remarks Mr. Baird, is to keep the calf from getting a setback when changing from whole to skim milk and to keep it in good growing condition. The average weight of the heifers at Nappan farm at one year of age is 690 pounds. The average cost of rearing bull calves (Guernseys) until a year old is placed at \$55.86, of heifers at \$42.76, and of grade heifers at \$12.22.

Increasing Merchant Fleet
Great Britain is increasing its merchant fleet, already the largest in the world, by tremendous strides. There has been a considerable number of orders placed in British shipyards during the last few months, being for 20 steamers totalling 156,700 tons for Cardiff shipowners, to cost nearly \$7,500,000.

The thistle is said to have been adopted as the emblem of Scotland in 809. When the Danes were attacking the Scottish camp at night, their advance guard struck a clump of thistles, and several cried out, giving opportunity warning of their attack.

Forty-third stations have been installed at busy traffic centres in London.

Wealth Told in Autos

In Ten Years Alberta's Registration Increased by \$4,000
When some blue ruin artist stands up and tells you that, "Alberta is not what it used to be, just tell him that today Alberta's automobile registration exceeds 64,000 whereas in 1916, or ten short years ago, it was less than 10,000."

The value of the automobiles driving the roads and the city streets of Alberta today is \$60,000,000. The money to buy those cars has been produced in Alberta.
The annual bill for keeping these automobiles going is, at a conservative estimate of \$25 per month per car, \$19,200,000 or \$7,600,000 more than the provincial budget of expenditure.
The depreciation upon these cars, at \$200 each, adds another \$12,800,000 to the bill, making a total automobile bill of \$32,000,000 annually besides the money expended for the purchase of new cars. Last year 11,000 new cars were added to the Alberta list at a valuation of \$1,000,000, so that in 1926 our total automobile expenditure reached \$13,000,000.—Lethbridge Herald.

Prosperity in the West

Better Times Here to be Reflected in Other Parts of the Country
"With no sign of a boom but with every evidence of stability and steady progress, the West is going ahead, and I am satisfied that conditions are better now than for many years," said Charles Murphy, Winnipeg, general manager of Western Lines, Canadian Pacific Railway. "The western farmer has got in a good crop, is paying off debts and banking money. The prosperity of the prairies will be felt in other parts of the country before long."

Alberta Alfalfa Seed

Shipment Has Been Made of Registered Seed to Denmark
For the first time in the history of Alberta, alfalfa seed is being shipped to Denmark. This is registered Grimm alfalfa grown by the Grimm Alfalfa Seed Growers' Association, at Brooks, which this year produced one-third of a million pounds of this seed. It appears that Danish growers have experimented with this seed in the past and have now placed an order for 50,000 pounds.

Peace River Crop Large

Alberta harvested last fall the second largest wheat crop in its history. The estimate now made final by the provincial department of agriculture for the 1925 crop is 113,120,000 bushels, being an average yield throughout the province of 18½ bushels per acre. The Peace River crop district had the largest crop in its history, and averaged 20 bushels to the acre, with many fields averaging as high as 30 and 40 bushels.

Don't pull up on the road to success and wait for the other fellow to go ahead.

Marsh Lands for Fur Farming

Saskatchewan Government Taking Over Area Referred to in Provinces
Negotiations between the Saskatchewan and Dominion governments, regarding the leasing of marsh lands for fur farming purposes, have now been completed and arrangements are being made to turn over certain crown lands for this industry. Hon. C. M. Hamilton, provincial minister of agriculture, announced.

Large areas of marsh lands controlled by the crown are available for fur farming in the northern part of Saskatchewan, and there is reported to be a moderate demand for such land.
The fur farming industry is so intimately bound up with the control of wild life, for which the provincial authorities are responsible, that it is impossible for the province to be divorced from the other. An agreement was consequently reached whereby the Saskatchewan government is authorized to take over available Dominion land in the province required for the development of the industry.

Has Abundance of Good Coking Coal

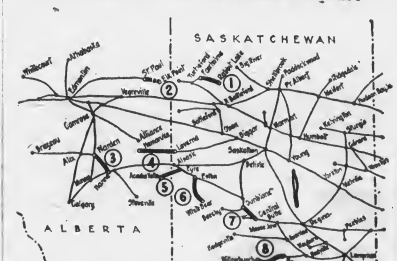

Plenty in Alberta and B.C. for Industrial Purposes
That there is plenty of coking coal in Alberta and in British Columbia for industrial purposes was the statement made by C. C. Ross, Dominion Government engineer, Calgary, in reply to the assertion of Hon. T. A. Cramer in a speech in Montreal that there would be difficulty in industrial development in Western Canada largely because there is no coking coal or iron between Cape Breton and British Columbia.

Mr. Ross stated that all the big mines in the Crow's Nest Pass, which lie partly in Alberta and partly in British Columbia, could produce coking coal and that the International Coal Company, Coeur d'Alene, Alta., was actually producing coke.
In addition, the Ford-Burns mines in the Sleep Creek and Highwood River districts had plenty of coking coal awaiting development.

As for iron, Mr. Ross did not know of any big deposits in Alberta or British Columbia.
Fish Net Factory
The first fish net factory to operate in Canada is being started at Fort William by the Canadian Fish Net Co., Ltd., financed by Canadian capital and employing Canadian labor. Hitherto the nets used by Canadian fishermen have been imported from Europe and the United States, which has at times entailed heavy losses owing to late deliveries.

"Daughter—Mother says it was more difficult for young men to become acquainted with young ladies when she was a girl than it is now. Did you have much trouble getting acquainted with her?"
Father—"Well, yes. I had to pick her handkerchief up twice."

CANADIAN NATIONAL EXTENSION IN WEST

The branch line programme of the Canadian National Railways was actively pursued in 1925, especially in Saskatchewan and Alberta, where a total of approximately 290 miles of new line was completed. The construction of this additional mileage will permit the company to add further improvements to its passenger and freight service; will shorten some of the routes, thus allowing for a lowering of operating costs, and has opened new territory to the homemaker. In the accompanying map the new branches are shown by heavy lines. The work in detail is as follows:

- 1.—Turtford-Southeasterly, 42.2 miles. Open for traffic early this year.
- 2.—St. Paul-Southeasterly, 20.5 miles. Train service will probably be extended over this new section early in 1927.
- 3.—Warden-Hanna, 62.1 miles. Completed and regular mixed train service was established on this line effective October 25.
- 4.—Loverna-Westerly, 50.0 miles. It is expected train service will be in operation to Hemmura early this year.
- 5.—Acadia Valley, 24.6 miles. Completed and regular mixed train service was commenced operative December 1st, between Acadia and Acadia Valley.
- 6.—Edson-Southeasterly, 24.7 miles. Expected to be in operation early in 1927.
- 7.—Dunblane-Southeasterly, 27.6 miles. This important extension was opened for regular traffic on November 22nd when through train service was established between Regina, Moose Jaw, Dunblane and Saskatoon.
- 8.—Weyburn-Southeasterly, 28.4 miles. Completed and through passenger train service established between Weyburn, Radville and Ardena effective November 22nd.

Wonderful Progress Made By the Dairy Industry in The Three Prairie Provinces

It is only in recent years that the Prairie Provinces of Canada have taken seriously to dairying, but the industry has made wonderful progress, and the manufacturer of dairy products in Western Canada has become one of the most pronounced features of Canadian agriculture. The vast areas of Western Canada still unoccupied or still devoted entirely to grain growing have been adapted to the production of milk, and in all probability the great expansion of the Canadian dairy industry in future will take place in these provinces. A feature of the milk made on the prairies is its excellent keeping quality, a very important consideration now that there is a surplus for export. The fine quality of the dairy products of Manitoba, Saskatchewan and Alberta is also shown by their popularity in open competition. The entries of these provinces in international and interprovincial exhibitions have repeatedly won leading prizes wherever shown.
Between 1900 and 1924 the butter production of British Columbia, Alberta, Saskatchewan and Manitoba increased from three to fifty million pounds and the cheese production of 1½ million pounds was doubled. Alberta has now replaced Manitoba as the leading dairy province of the west and the Saskatchewan figures show a doubling of production every five years. It is predicted that by 1930 the production of Western butter will exceed 100 million pounds of which possibly three quarters will be available for export. Such an exportable surplus would definitely place Canada among the world's outstanding dairying countries.

The estimated current (1926) production is as follows:

	Manitoba	Saskatchewan	Alberta
Creamery Butter, lbs.	12,449,000	16,550,000	20,756,000
Dairy Butter, lbs.	9,236,000	18,750,000	17,500,000
Cheese, lbs.	911,000	210,000	1,250,000

The value of all dairy products was estimated at \$56,500,000 for the season of 1926.

The free homestead policy, whereby a qualified person may acquire a quarter-section of land by the performance of certain residence and improvement duties, still applies to the public lands in the Prairie Provinces, except the southern portions of Saskatchewan and Alberta, but with the exception of the northern districts of the three provinces suitable lands available for homestead entry within easy reach of railroads are practically exhausted. There are, however,

Manitoba Wheat Helps Clay Belt

Experimental Samples Produce Exceptionally High Yield at Kapuskasing
The possibility of converting the clay belt of northern Quebec and Ontario into a profitable wheat raising area has been indicated by experiments which the Dominion Experimental Farm at Kapuskasing, Ontario, has been conducting with Manitoba No. 1 hard Marquis wheat.

In a report which has been received by Mr. J. Black, director of the Agriculture and Natural Resources Department of the Canadian National Railways, it is stated that the wheat was sown by Smith Ballantyne and owned by the farm at Kapuskasing. The wheat from the samples weighed 62½ pounds per bushel with a yield of 51.4 bushels per acre.

As a result of this experiment it is expected there will be a large increase in the acreage sown to wheat along the lines of the Canadian National Railways both east and west of Coburn where colonization has been proceeding at a satisfactory rate.

Hold Up New York Traffic

Six Subway Trains Stalled Before Small Dog Was Coaxed Off Track
Refusal of a little black dog to leave the subway track on Brooklyn Bridge resulted recently in a 20-minute stop of traffic and the calling of police reserves. Before the dog was coaxed into the arms of a policeman six trains were stalled and nine policemen, six motorists, 19 guards, 40 motorists and more than 100 passengers dismissed the best method of removal. The dog was looked at the bridge precinct on a charge of "tying up traffic at a dense centre" and sentenced to the dog pound for the night.

Sell Valuable Mare

Herod's Pride, Mare Imported into Canada by Prince of Wales, Now Goes to California
Herod's Pride, the mare imported into Canada by the Prince of Wales, and owned by Lord Johnston of Calgary, since last September, has been sold to the Brown Shasta Stud Farm in California for a sum in excess of \$5,000. Since coming to Canada, this state-of-the-art mare, of Herod has won fifteen races, eleven of them since May 14th last year.

Dog Summons Rescue Party
Carrying a scribbled note from two of them blinded, a maimed dog crossed a 3,000-foot pass in the Brooks Mountain range at night with the mercury 40 degrees below zero, to a cabin at Little Snow, Alaska. A rescue party was sent out, and the two men were carried into Little Snow and rushed by airplane to the hospital in Fairbanks.

Here often become intoxicated in autumn, absorbing the alcohol from plums.

Pays Homage to Britain

France is Grateful For Lend-Lease Shown Her
We should be lacking both in foresight and in gratitude if we did not tender our homage to Great Britain. Britain is not like her haughty kinsman across the Atlantic, threatened by an unprovoked crisis of prosperity. England, if the truth is to be told, suffers from anxieties similar to ours. Upon the parity of the pound and dollar there should be no illusion. For Britain the unemployment problem is an open wound, and the financial dispute is still unsettled. The future of her industry is menaced, and yet with a political discrimination which she has not invariably displayed, she begins to understand that she has nothing to gain by crushing France. It is possible that her large-minded and large-hearted decision may bring about the restoration of Europe. We shall not forget it, and it strengthens our position in Washington.—Intransigent (Paris).

Grant Extraordinary Request

London Caterers Accept \$25,000 to Feed Man for Life
A noted firm of London caterers has announced that it has been able to comply with two extraordinary requests.
One was to supply a handsome, well-dressed, well-schooled man to act as best man at a wedding. The firm sent one of their handsmen, caterers, who collected 3 guineas for his services.
The company also accepted another man's offer of £2,000 cash (about \$25,000) to supply him with two meals daily from one of their best restaurants for the rest of his life. The applicant is now 40, and if he lives 27 years he will be paying roughly 5 shillings a meal.

Australian Wheat Pool
There is, according to Colin Barrell, president of the Manitoba Wheat Pool, every probability in the near future of an Australian wheat pool which would be kept in close touch with the pools in Western Canada to the end that competition in the world market may be greatly reduced.
Owing to the high cost of coal, a scheme has been fostered for the distillation of peat, or, as it is commonly called in Ireland, peat, in enormous quantities of which exist in the British Isles. From it can be obtained paraffin and asphalt and other by-products.

Fog is the friend of the druggists. The sale of laxatives and cough drops increases greatly during a fog, since it irritates the throat.
It is only a matter of time until a fast young man discovers that the race isn't always to the swift.

But few people who go up in the air use an airship.

Accompanists—Mary Baron, Albert Christie (Bellevue)

Starting at 8 o'clock prompt.

Should time permit Mr. Harris will endeavour to play a few imitations of Birds, Animals, Bagpipes, etc.

Take your paper and ensure yourself of a program.

WHAT'S IN A NAME?

\$100.00

FOR ONE WORD

[A New Name is wanted for this Beer]

The Silver Spray Brewery was acquired in March last, by the Calgary Brewing & Malting Co., Limited—the oldest brewery in Western Canada.

A new company is being incorporated and we want a new name for the Beer, a name that will make you remember when you purchase.

WE WANT A DISTINCTIVE NAME—SHORT, SNAPPY AND EASILY SAID.

The new Beer will be the true type of the standard Canadian Lager Beer, brewed with expert knowledge and thoroughly matured.

Think of a name. \$100.00 will be given to the one who suggests the winner. In case two or more contestants give the name chosen, the award will be divided.

ALL REPLIES TO BE IN BY FEB. 12th

No employee of the Silver Spray or Calgary Brewing Company are eligible to compete.
